

Science Fair Permission Form

In addition to the science curriculum that is taught during class time, students can submit their very own science fair project at Broadway Elementary's Science Fair! Participation is **optional**, but highly encouraged.

Directions and guidelines will be discussed in class and the teacher is always available for feedback and questions. However, this is an extracurricular project that is meant to be completed outside of school with the support of adults at home.

If your child wishes to participate, please turn this form in to their homeroom teacher by Monday, 2/10/2020. Science fair projects should be on a tri-fold presentation board which will be provided. Projects can also have materials used during the project as part of their display. Please see the materials attached/emailed home for step by step instructions on how to complete a project.

Science Fair projects should fall into one of the following categories.

- Explains how something works
- Answers a question following the Scientific Method
- Solves a problem by inventing/finding a solution

Science fair projects are due and will be showcased at Open House, on Thursday, March 12th, 2020.

By signing this I give permission for my child to participate in the Broadway Elementary Science Fair.

Parent Signature: _____ Date: _____

Student Name (Printed): _____

Student's Partner(s): _____ Room(s) _____

My project will be _____
